

High-Tech Synthetic Oil

CAPABILITIES STATEMENT

Company Overview

High-Tech Synthetic Oil is an Independent Distributor of Amsoil Synthetic Lubricants. Amsoil Synthetic Lubricants have been used in extended drain applications such as transportation equipment, stationary engines, hydraulic and compressor units. *In every industry they have proven effective in improving engine durability and fuel economy.*

Amsoil formulates all of their products for extended drain capabilities, which translates into savings on lubrication costs, less waste oil, better fuel economy and longer equipment life. Amsoil is headquartered in Superior, Wisconsin and was the first company to introduce an API qualified, 100% synthetic motor oil in 1972.

Key Personnel

Steve Tarini is the owner of High-Tech Synthetic Oil and heads its sales and marketing duties. He is trained and certified in the use of synthetic lubricants in a wide variety of applications. He holds a degree from The Spartan School of Aeronautics in aviation maintenance where he developed the knowledge of synthetics in sophisticated aircraft. This knowledge and experience is now used to demonstrate the effectiveness of Amsoil Synthetic Lubricants over conventional oils and lubes.

Products and Services

Amsoil offers a very wide variety of synthetic lubricants, including:

- 100% Synthetic Motor Oils
- Synthetic Diesel Oils
- Industrial Gear and Bearing Oils
- Industrial Hydraulic and Compressor Oils
- Synthetic Greases, Fuel Additives and Filters
