Signature Series 0W-30 100% Synthetic Motor Oil

AMSOIL Signature Series 0W-30 Synthetic Motor Oil is the industry benchmark in lubrication technology. Engineered with the world's finest synthetic base oils and high-performance additives, AMSOIL Signature Series 0W-30 is designed for those who demand the absolute best in motor oil performance. The exclusive "extended drain" formulation delivers superior engine protection and maximum fuel economy. AMSOIL Signature Series 0W-30 is a premium-grade synthetic motor oil that exceeds the requirements of modern, high-performance engines and older engines. It replaces other 0W-30, 5W-30 and 10W-30 motor oils and consistently outperforms competitive conventional and synthetic motor oils.

100% Synthetic Motor Oils

Engineered to outperform all conventional gasoline engine motor oils. Reduce heat, friction and wear for maximum power, performance and fuel efficiency. Clean engine formula. Resist high-temperature breakdown that forms sludge and varnish. Last longer and offer better protection. Ideal for hot and cold climates. Recommended for all gasoline engines.

Formula 4-Stroke Synthetic Scooter Oil

Formulated specifically to meet the special needs of today's high-tech air- and water-cooled four-stroke motorized scooters. Offers unsurpassed wear protection and friction reduction for longer equipment life and cooler operating temperatures. Exceptional shear stability ensures consistent viscosity protection and provides additional protection for transmissions and gear boxes. Friction-modifier-free formulation ensures wet-clutch compatibility and smooth clutch operation. A special anti-corrosion additive package provides long-term protection during periods of inactivity and storage.

10W-40 Advanced Synthetic Motorcycle Oil

For those who demand the best. Advanced multi-functional formula. Fulfills the requirements of both domestic and foreign motorcycles. Recommended for high-performance liquid- or air-cooled four-stroke engines and transmissions and both four- and two-stroke motorcycles. Wet-clutch compatible. Outstanding gear protection. Anti-rust fortified. Recommended for Honda, Kawasaki, Yamaha, Suzuki, BMW, Husqvarna and Victory motorcycles. Not recommended where an API GL-4 or GL-5 gear oil is required.

20W-50 Advanced Synthetic Motorcycle Oil

For those who demand the best. Multi-functional and fulfills the requirements of both domestic and foreign motorcycles. Excellent performance in air-cooled motorcycle engines due to high heat resistance, anti-wear additives and oxidation resistance. Recommended for engines, transmissions and the primary chaincase. Absolutely shear stable and will not thin out from mechanical activity. Contains special anti-rust agents for superior rust protection, and contains no friction modifiers for excellent wet-clutch performance. Recommended for use in Harley-Davidson, Buell, KTM, Ducati, Aprilia, BMW and Triumph motorcycles. Not recommended where an API GL-4 or GL-5 gear oil is required.

Premium API CJ-4 Synthetic Diesel Oils

The premium choice for model-year 2007 and newer heavy-duty and pickup truck diesel engines requiring API CJ-4 emission-quality oil standards. Offer extended drain intervals of up to 3X OEM recommendation. Deliver extraordinary lubrication and maximum fuel efficiency in diesel engines found in commercial, fleet and personal vehicles. Contain low sulfated ash, phosphorus and sulfur additives that exceed modern specifications for emission-quality diesel oil. Compatible with all exhaust treatment devices and designed to extend the service life of particulate filters.

Series 3000 5W-30 Synthetic Heavy Duty Diesel Oil

Long service-life oil. Engineered for pre-2007 on-road diesel engines and all model-year off-road diesel engines. Also engineered for all gasoline engines recommending API SL specifications, including turbo-charged vehicles. Provides superior wear protection and fuel efficiency compared to conventional oils. Premium synthetic base oils and additives with 12 TBN chemistry resist oil breakdown from heat, blow-by chemicals, acids and oxygen. Improves cold-temperature starting.

Synthetic 15W-40 Heavy Duty Diesel Oils

Engineered for pre-2007 on-road diesel engines and all model-year off-road diesel engines. High 12 TBN controls acids from combustion blow-by and EGR. High levels of detergency and dispersancy additives control soot thickening, oxidation and wear. Resist bore polishing, deposit formation and ring sticking. Provide clean engine performance. Extended drain capabilities reduce downtime and motor oil expenses.

Severe Gear® Synthetic EP Lubricants

Specifically engineered for high-demand applications, including trailer towing, heavy hauling, 4X4 off-road driving, commercial use and racing. Superior lube film strength combined with extra additives protects gears and bearings from scoring and wear. Resist high heat and possess excellent cold-flow properties. Outperform all conventional gear oils. Recommended for all types of vehicles including turbo-diesel pickups, SUVs, autos, trucks, heavy equipment and motor homes. Compatible with most limited-slip differentials.

Severe Gear® Heavy Viscosity Synthetic Gear Lubes

Engineered specifically for the demands of severe racing conditions. Recommended for off-road truck racing, rock racing, rock crawling, tractor pulling, funny car racing and dragster racing applications that require heavier-viscosity gear lubricants. Formulated with shear-stable, heavy synthetic base oils for high film strength and extra heavy treatments of additives. Provide improved flow over conventional oils, reducing viscous drag and power loss. Engineered for high-horsepower, high-torque conditions where centrifugal gear lube sling-off is encountered. Tenacious formulations cling to gears and bearings for the best possible protection during shock loading, high G-forces and where pinion gears are installed at steep angles.

Universal Synthetic Marine Gear Lube

Provides true marine gear performance. Contains a stable extreme-pressure additive package that provides superior protection from shock loading. Resists foam and retains extreme-pressure qualities, even when subjected to 10 percent water contamination. For use in outboard lower units, stern drives, V-drives, bow and tunnel thrusters and marine transmissions requiring and SAE 75W90 or 80W-90 lube meeting either GL-4 or GL-5 performance standards. Excellent for use in ATV applications.

Synthetic Universal Automatic Transmission Fluid

Recommended for most automatic transmissions. Eliminates confusion, mis-applications and lowers inventory requirements. Delivers maximum protection and is excellent in demanding environments such as towing, hauling or commercial use. Lasts longer than conventional oil for extended drain intervals. Saves time and costly maintenance expenses. Superior hot- and cold-weather performance. Improves efficiency and typically reduces operating temperatures by as much as 50°F. Excellent for power steering units that use ATF.

Synthetic Manual Synchronesh Transmission Fluid

Specifically designed for manual transmissions and transaxles with synchronizers. Formulated with advanced additive technology to provide proper friction characteristics for smooth shifting without grinding or bump-shifting while providing the ultimate in gear and bearing protection. Outperforms motor oils commonly used for manual transmissions. Protects at extreme temperatures from -40°F to 300°F. Possesses outstanding anti-wear and anti-foam properties and is non-corrosive to yellow metals.

Synthetic Powershift Transmission Fluids

Specifically formulated for heavy-duty powershift transmissions. Provide outstanding friction performance for enhanced clutch engagement. Formulated to prevent slippage and glazing. Shear stable and anti-wear fortified. Protect gears and bearings. Resist high-temperature oxidation, varnish and sludge formation. Superb cold-flow properties. Extended drain interval capable. Recommended for heavy-duty service found in commercial and earth-moving applications as well as lighter-duty transmissions requiring the listed specifications. SAE 30 & 50 are also excellent for manual transmissions.

Synthetic High Viscosity Lithium Complex Grease

AMSOIL Synthetic GVC is a lithium-complex thickened grease blended with premium ISO-320 base oils. Fully compounded with additives providing EP protection, oxidation resistance and rust and corrosion protection. AMSOIL GVC is excellent for use in heavy-duty industrial and off-road applications where equipment is working under adverse conditions such as exposure to environmental elements, slow, heavily-loaded applications and shock-loading conditions.

Semi-Fluid 00 Synthetic EP Grease

AMSOIL Semi-Fluid 00 Synthetic EP Grease is formulated with high-viscosity ISO-460 base oils and a sophisticated additive package, providing unparalleled protection against wear. Ideal for leaky gear boxes in industrial and fleet applications, centralized lubrication systems and for use in applications that are difficult to service. Primarily used in grease-filled cases where conventional semi-fluid greases do not provide adequate lubricant life or protection. Replaces Mobil SHC 007.

HYDRAULIC OILS

Synthetic Tractor Hydraulic/Transmission Oil

Formulated for combinations of transmission, hydraulic systems, final drives, power take-off systems and wet brakes. Engineered specifically to meet the tough applications of heavy-duty farm and industrial equipment as well as commercial and residential lawn tractors. Exceeds the most demanding all-weather specifications of both Ford New Holland FNHA-2-C-200 & 2-C-201 and John Deere J20C & J20D, as well as most other tractor hydraulic transmissions. Eliminates the need for seasonal oil changes. Ideal for lawn tractor hydrostatic transmissions.

Synthetic Biodegradable Hydraulic Oil

A premium lubricant designed to biodegrade to its natural state when subjected to sunlight, water and microbial activity. TBI has a very low toxicity level because the oil is formulated with ashless additives that do not contain heavy metals. AMSOIL TBI is recommended for gear, vane and piston stationary and mobile hydraulic systems. TBI is a multi-viscosity, SAE 5W-20 oil and is recommended for use in place of either ISO-32 or ISO-46 hydraulic oils.

EA PRE-FILTERS

Ea Pre-Filters

Ea Pre-Filters for racing and off-road applications prevent large particles from sticking to EaAR and EaAU Filters and blocking the flow of air. Polyester mesh bags fit over the top of existing air filters and feature an industrial-grade elastic band at the opening to ensure the pre-filter does not slide off. Prevent particles down to 0.005" from getting to the air filter without significantly reducing airflow. Particles larger than 0.005" generally fall off the pre-filter.

Twin Air PowerSports Air Filters

Offer superior air filtration performance for ATVs and dirt bikes. Constructed of two layers of open-pore foam to provide maximum filtration and superior air flow. Exclusively-formulated adhesive withstands repeated cleanings, allowing for reapplication of filter oils and years of trouble-free service. Complete line of Twin Air cleaning products also available. For application and pricing information, consult the Wholesale Zone at www.amsoil.com.

By-Pass Oil Filter Units

Remove particles less than one micron or larger, virtually eliminating engine wear. Filter all of the oil in a typical five-quart system in less than 10 minutes. Designed for use with AMSOIL Ea Filters. By-pass replacement parts available online at www.amsoil.com.

Marine By-Pass Filter Mounting Kit

Easily-accessible remote mounting capability for a full-flow spin-on oil filter and a spin-on by-pass oil filter. Specifically designed for marine applications with Alumiplated-coated materials to resist corrosion. Hoses are U.S. Coast Guard approved.

AMSOIL-Oiler Pre-Charger Units

The AMS-Oiler pre-charger effectively puts an end to dry-engine starting. Motor oil is injected directly on the engine bearings and other wear-sensitive surfaces upon turning the ignition key. Its rugged construction withstands severe service and performs reliably in any personal, commercial or industrial application. Outperforms gas- and air-charge systems. Mechanical life cycle exceeds one million engine starts with no maintenance required.

FUEL ADDITIVES

P.i. Performance Improver Gasoline Additive

Improves fuel mileage an average of 2.3% and up to 5.7%. Reduces emissions such as hydrocarbons (HC) up to 15%, carbon monoxide (CO) up to 26% and nitrous oxides (Nox) up to 17%. Restores power and performance. Reduces the need for costly higher-octane fuel. Reduces noise from carbon rap and pre-ignition. Offers better vehicle drivability and smoother operation.

Sales Tax Information

Sales Tax Table as of January 1, 2009

AMSOIL INC. is registered to collect sales tax in each state, province and most local jurisdictions where applicable. AMSOIL is responsible for collecting and remitting sales tax to the appropriate taxing jurisdiction for all AMSOIL Dealers and accounts.

This table provides you with the state sales tax rate and a combined average rate by state. This will allow you to estimate the sales tax due on your order. Please note that the rate is an average combined rate and there may be other local rates you will need to take into consideration. Local taxing jurisdictions can include county, city, district, township, parish, borough, municipality, etc. At the time you place your order the correct sales tax will calculate based on the destination of your product or pick-up location. Sales tax is calculated at the point of sale, which is the location where the goods are received by the purchaser – the end destination. Sales tax rates will be broken out on your invoice into state and local taxing jurisdictions.

Tax Rate Determination

Sales tax rates are set in the following manner:

1. If you pick up your order at an AMSOIL Distribution center, you will be charged the applicable sales tax at that point of sale. This is the prevailing tax rate at that Distribution Center.

2. If you have the order shipped, sales tax will be charged at the rate applicable to the ship-to address, with the exception of orders being shipped within one of the following states: Illinois, Ohio, Pennsylvania, Texas and Virginia.

Exemption Certificates

If you prefer to pay state sales tax directly to your state revenue department rather than have it collected by AMSOIL at the time of purchase, contact your state for registration information.

AMSOIL INC. requires proper documentation on file at AMSOIL Corporate Headquarters for those with an exempt status. Refer to the Uniform Sales Tax Certificate (G495) for more information. Complete the Uniform Sales Tax Certificate if you are registered with your state to collect sales tax. Several states have state-specific requirements. These include: Florida, Indiana, Louisiana, Massachusetts, New York, Virginia, West Virginia and Wyoming. Refer to the Uniform Sales Tax Certificate for specific state-by-state requirements.

It is important that you are aware that under the terms of state registrations, you will be exempt only in those states in which you have a valid registration. It is the responsibility of AMSOIL INC. to collect sales tax on all sales unless the products are exempt or the ultimate purchaser provides a valid exemption certificate.

If you pick up products at an AMSOIL Distribution Center in a state where you are not registered to collect sales tax you will need to complete a Uniform Sales Tax Certificate and return it to AMSOIL INC. so the appropriate records can be updated. This will allow you to pick up products at any location with a tax exempt status because you are taking them into another state for resale.

Tax Rate Differences

If you have been charged an incorrect tax rate on your order, contact AMSOIL at:

**AMSOIL INC .
Att: Sales Tax Dept.
925 Tower Ave.
Superior, WI 54880
(715) 392-7101**

Please allow time for processing this rate change. Tax rate changes will be verified via a written notice from AMSOIL INC.

To recover or remit sales tax differences when you resell product in a different rate area, take the following steps:

1. Obtain a Sales Tax Refund Claim Form (G20) from AMSOIL INC., which is available in your Account Zone at www.amsoil.com or can be emailed or faxed upon request. Remit the completed and signed form along with the sales receipt copies of the different rate transactions.
2. Alternatively, you can deduct unrecovered portions of sales tax on your Federal Income Tax return on Schedule C.

Freight and Handling Information

Freight and Handling Charges

You may order products shipped freight collect OR pre-pay the freight using the schedule included in your account-specific ordering information sheet (Dealer/P.C.: G2604; ROTS: G2603; Commercial: G2602)

Third-party billing is allowed. When third-party billing is requested, the UPS/FEDEX account number of the third party must be supplied at the time of order placement. Parcel Post shipments to military P.O. Boxes will be charged actual freight charges and cannot be shipped freight collect.

Additional Delivery Fees

Carriers may charge an additional fee for delivery to a residence. The consignee pays any ADDITIONAL freight charges in these situations. Allow up to 2-3 days more for rural delivery. Some LTL carriers charge a fee when customers request a call before delivery or lift gate service. The consignee pays for this additional service.

Pick-Up Orders

It is advisable to call the AMSOIL Distribution Center before travelling to pick up product. All orders scheduled for "Pick-Up" **must be picked up within 5 days of the date of the order.** This can also be pre-arranged with the distribution center manager. **Orders that are not picked up within the time-frame will be cancelled.**

Routing

You may include specific routing instructions with your order. However, because the pre-paid freight schedule is based on using the most economical method of transportation, the final decision on routing pre-paid freight orders rests with the AMSOIL Distribution Center Manager. If you need a specific routing guarantee, specify that your order be shipped "Freight Collect." UPS/FEDEX and Parcel Post shipments cannot be shipped Freight Collect. AMSOIL recommends searching for the best rates to your location and specify Freight Collect for larger shipments.

Please contact your nearest AMSOIL Distribution Center for details when requesting air freight, expedited freight, LTL services or Saturday deliveries. Actual freight charges will apply in these situations, so be sure to ask for estimated delivery times via each shipping method and estimated costs to make your best routing decisions.

Expediting and Tracing

If you have not received your order in 5 to 7 days, contact the AMSOIL Distribution Center from which your order was shipped. Be prepared to furnish the following information:

1. Order date
2. Purchaser's name and account number
3. Order number (if known)
4. To whom the product was shipped with an address.

AMSOIL INC. will notify you of the method of shipment, date of shipment and present location as soon as possible.

Shortages

On shipments with shortages, please note the number of pieces short on the delivery receipt and sign it. Then call the delivering carrier's office and report your shortage. If these efforts fail to complete your shipment within 10 days of receipt, contact your AMSOIL Distribution Center and request assistance.

Overages

On shipments with overages, please note the number of extra pieces on the delivery receipt and sign it. Then, contact your AMSOIL Distribution Center to make further arrangements.

Limited Distribution

Not every distribution center carries a complete inventory of the products listed on this price list. When there is a substantial repeat order for a product not carried by your distribution center, please discuss it with the Distribution Center Manager.

Claims and Damaged Shipments

(NOTE: Claims must be made within 7 days from the time of receipt.)

Items Picked Up at a Distribution Center

If you pick up an order at any distribution center and discover concealed damage when the product is opened, return the damaged product to the same distribution center for exchange at your convenience. Your copy of the invoice or packing slip should accompany such an exchange. The exchange can only be made for exactly the same products.

Parcel Post Shipments from a Distribution Center

1. Claims for damages by Parcel Post must be filed by the purchaser.
 2. Return damaged merchandise and cartons to the local post office when the claim is filed.
 3. All claims are returned to the shipper for verification of mailing date and distributor cost of the damaged items.
 4. If reimbursement is made to AMSOIL INC. as the shipper, AMSOIL will replace the shipment to the purchaser at no charge.
 5. You can also accept reimbursement on your claim. If so, you must place a re-order with the AMSOIL Distribution Center for replacement of your damaged products.
- Please note that some items listed in the price list cannot be shipped via Parcel Post –

United Parcel Service (UPS) & Federal Express (FEDEX) Shipments

Please inspect the shipment before signing for delivery. When there is visible damage, refuse to accept delivery. UPS/FEDEX will return the damaged goods to the AMSOIL Distribution Center and the distribution center will re-ship your order. If UPS/FEDEX delivers a package without a signature and you discover damaged goods inside, contact your local UPS/FEDEX office and refuse the shipment due to damage. When there is concealed damage discovered after you accept delivery, contact the AMSOIL Distribution Center for instructions immediately. NOTE: If you accept delivery of visibly-damaged merchandise, you accept all responsibility for filing claims with UPS/FEDEX.

Other Shipments (LTL or Common Carrier)

1. When damaged goods are received, have the driver make note of the damage on the delivery receipt **before you sign it**.
2. Call the carrier's local office and request an inspection of the damaged goods.
3. File a claim with the carrier for the purchaser's cost of the merchandise.
4. Damage claims must be filed within 7 days. The sooner you file, the better.
5. Unlike UPS/FEDEX shipments, you should never refuse a damaged shipment when the products are delivered via a commercial carrier (truck lines). To do so will cost you freight both ways.

Re-Delivery Charges

If a freight carrier is unsuccessful when attempting to deliver to a "ship-to" address, a re-delivery charge may be necessary. This will be charged to the purchaser.
